Questionnaire

Actions in the event of accidents and first aid

 Surname, first name

Question 1	You are a witness to an accident with injured persons. Are you obligated to provide first aid?	correct
	Yes of course, I am fundamentally obligated to provide first aid. If I do not do so, I am punishable in accordance with Section 323 c of the German Criminal Code.	<input type="checkbox"/>
	I am only obligated to provide first aid if I am a trained first aider. Otherwise I may cause the injured person more harm rather than help.	<input type="checkbox"/>
	As a layperson, I am obligated to make an emergency call. Moreover, I can provide further first aid if I learn the technique.	<input type="checkbox"/>
Question 2	Which of the statements below regarding providing first aid is correct?	
	I need not provide first aid if doing so poses a significant risk to myself.	<input type="checkbox"/>
	Providing first aid has top priority. Making an emergency call can be avoided.	<input type="checkbox"/>
	A person who is bleeding heavily must always be given first aid, even if you are unable to stand the sight of blood and it may even cause you to faint.	<input type="checkbox"/>
Question 3	What information does the emergency plan contain?	
	Location of the signalling equipment	<input type="checkbox"/>
	Location of the first aid boxes and stretchers	<input type="checkbox"/>
	An overview of the most important first aid measures	<input type="checkbox"/>
	Names of the first aiders	<input type="checkbox"/>

Question 4	What is understood by a rescue chain, which is required in the case of first aid?	
	A rescue chain is a chain of people who provide first aid material to difficult-to-reach sites.	<input type="checkbox"/>
	A rescue chain is the continuous provision of emergency assistance.	<input type="checkbox"/>
	A rescue chain is an aid to protect those involved in an accident, e.g. against slipping on a slope.	<input type="checkbox"/>
Question 5	What are the correct actions to take in the event of accidents? In which order should these measures be taken?	
	<ol style="list-style-type: none"> 1. Immediate life-saving measures 2. Securing/self-protection 3. Further first aid 4. Emergency services 5. Hospital 6. Make the emergency call 	<input type="checkbox"/>
	<ol style="list-style-type: none"> 1. Remain calm, secure the accident site 2. Immediate life-saving measures 3. Make the emergency call 4. Further first aid 5. Emergency services 6. Attempt further measures 	<input type="checkbox"/>
	<ol style="list-style-type: none"> 1. Immediate life-saving measures 2. First aid 3. Make the emergency call 4. Secure the accident site 5. Emergency services 6. Hospital 	<input type="checkbox"/>

Question 6	You have found an injured colleague and you called the emergency doctor immediately. What do you report?	
	<ul style="list-style-type: none"> • Where the accident occurred • What happened • How many people are injured • What type of injuries have been sustained 	<input type="checkbox"/>
	<ul style="list-style-type: none"> • Which company I work for, together with the precise address • How many people are injured • What exactly happened • The injured person's name 	<input type="checkbox"/>
	<ul style="list-style-type: none"> • My name • Which company I work for • What happened • How many people are injured 	<input type="checkbox"/>
Question 7	You have found an injured colleague and have already given all important information to the emergency doctor. What else is vital at this time?	
	I must provide a telephone number for queries.	<input type="checkbox"/>
	I must inform the managing director.	<input type="checkbox"/>
	I must stay on the telephone and wait for queries.	<input type="checkbox"/>
	I must trigger the fire alarm.	<input type="checkbox"/>
Question 8	Which of these does not count as an "immediate life-saving measure" in the event of an accident?	
	Checking breathing	<input type="checkbox"/>
	Recovery position	<input type="checkbox"/>
	Checking consciousness	<input type="checkbox"/>
	Providing pain medication	<input type="checkbox"/>
	Stopping the bleeding	<input type="checkbox"/>
